

# INJECTION PLUGS

FOR THE PURPOSE OF UNIPLUG-HLC® CHEMICAL ANCHOR

## PRODUCT DESCRIPTION

For the purpose of using the UniPlug-HLC® chemical anchor on hollow building materials.

## FIELD OF APPLICATION

For fixating concrete armouring, anchor rods, threaded rods and special fastening systems to hollow building materials such as concrete, stone and masonry.

## PROPERTIES

- For the purpose of UniPlug-HLC® chemical anchor
- 15 x 85 mm

## APPLICATION

### Directions for use:

After preparing and removing dust from the drill hole (at least clean 2x and blow out 2x). Remove cap. Place injection sleeve in drill hole in case of hollow building materials. Fill drill hole for about 2/3 with product. Avoid air entrapment. Replace cap. Bring anchor after injecting within assembly time with rotating movement in the drill hole.

Our advice is based on extensive research and practical experience. However, in view of the large variety of materials and the conditions under which our products are applied, we assume no responsibility for the results obtained and/or any damage caused by the use of the product. Nevertheless, our Service Department is always at your disposal for any advice needed.
