

# POLY MAX® SEALANT ALL JOINTS THE CHOICE OF THE PRO

Premium sealant for interior, sanitary & exterior

## THE CHOICE OF THE PRO FOR ALL SEALING JOBS

Girffon proudly presents Poly Max® Sealant All Joints, the next generation of our esteemed Poly Max® family. Leveraging 20 years of innovation, Poly Max® Sealant All Joints is designed to deliver superior performance for all your needs: sealing, filling and finishing. This premium, multifunctional sealant is easy to use, fast curing and for all kinds of sealing projects in interior, sanitary and exterior areas.

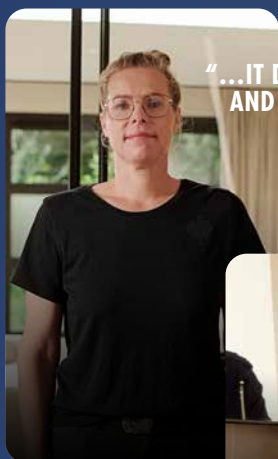

Our new all-in-one sealant replaces silicone, acrylic, and PU sealants, retaining all the benefits but without the disadvantages. Its unique formula ensures no shrinkage, unmatched flexibility, and resistance to mildew and UV rays, making it ideal for professionals who demand reliability and efficiency.

Available in six colors, including transparent, Poly Max® Sealant All Joints is your go to solution for a wide range of materials and surfaces, ensuring a durable and aesthetically pleasing finish every time.

# I CHOOSE POLY MAX® SEALANT ALL JOINTS BECAUSE...

"...IT DOESN'T SHRINK  
AND IS DURABLE."

"...IT'S FOR MULTIPLE  
SEALING JOBS."

"...IT CURES FAST AND  
IS EASY TO USE."

**FEMKE, Builder**  
14 years of experience

It doesn't shrink and is durable. I love to create the perfect seal, the finishing touch. This is my solution for long lasting joints.

**JAMES, Installer**  
24 years of experience

It cures fast and is easy to use. Poly Max® Sealant All Joints is water resistant after only 2 hours after application and this sealant can also be used on moist surfaces.

**SANDRO, Contractor**  
30 years of experience

It's suitable for multiple sealing jobs. Whether I'm working indoor or outdoor, I can use the same product. Sanitary, kitchen and construction applications are all covered by this sealant.

## POLY MAX® SEALANT ALL JOINTS, THE CHOICE OF THE PRO!

\* Drying times may vary depending on surface, quantity of product applied, moisture content and ambient temperature, among other factors.

\*\* Test beforehand

# FOR THE PERFECT FINISH

In addition to Griffon Poly Max® Sealant All Joints, Griffon is proud to introduce the Sealant Finisher, a ready-to-use and acid free primer that gives every sealant job a professional finish. Sealant Finisher has been specially developed to effortlessly smooth sealant joints, resulting in a perfect, even appearance. Sealant Finisher comes in a handy spray bottle made from 70% recycled plastic.

To complement the sealant concept, Griffon is also introducing the Sealant Finishing Set. This set with four spatulas is designed to finish all types of sealant joints. As the Sealant Finishing Set contains four different spatulas with rounded and square angles in different sizes, it is easy to finish almost all types of joints quick and tight. The Finishing Tools are made of thermoplastic rubber, making them long lasting and easy to clean.

## SEALANT FINISHER

Ready to use, easy  
smoothing spray

Less chance of  
mould growing

Accelerates curing  
of sealant

## SEALANT FINISHING SET

Made of durable  
thermoplastic rubber

Multifunctional: for round  
joints, 45° & 90° joints and  
flat joints

Easy to clean – sealant  
residues are easily removed
